

# Fiber Inspection Tips and Adapters

VIAVI Solutions offers a wide variety of fiber inspection tips and adapters to help you Inspect Before You Connect™ and work clean. Browse through this comprehensive guide of inspection tips and adapters, then order what you need via [www.viavisolutions.com](http://www.viavisolutions.com) or by calling 1-844-Go VIAVI (+1-844-468-4284).

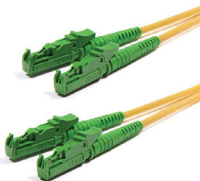

## Barrel Assemblies (BAP)

Some of our FBPT Series tips require a BAP, or barrel assembly. A BAP contains a common set of optics that can be used with multiple hollow tips. This approach makes many common tips more economical. Some tips contain their own optics and do not require a BAP. Typical examples of tips containing optics are long-reach tips and tips with a 60-degree angle for hard-to-reach areas; RibbonDrive™ tips, such as those used for MPO connectors, are another example. The following pages indicate which tips require a BAP and which do not.

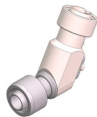

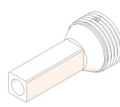

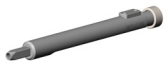

| Catalog Part Number | Segment           | Product Image                                                                       | Description                                                  |

| FBPP-BAP3           | Barrel Assemblies |  | Narrow Barrel Assembly for FBP Series and FiberChek Probes   |

## FBPT Probe Tips

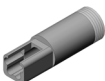

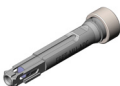

The FBPT Series probe tips attach to the **FiberChek™** and **FBP-P5000i** Inspection Probes. They can also be connected to the **FiberChek Sidewinder™** with an adapter for use with simplex inspection. FBPT tips are primarily used for bulkhead inspection, but patch cord tips are also available for certain connectors.

## FCPT Tips

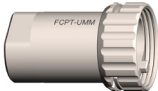

The FCPT Series probe tips attach to the **FiberChek Sidewinder™** Inspection Probe for inspecting multi-fiber connectors. In addition to accepting various FCPT series tips, the FCPT-UFBPT adapter allows certain FBPT series tips to be used with the Sidewinder.

## FMA Adapters

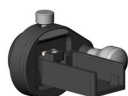

FMA Series adapters are designed for patch cord inspection. These adapters connect to the **FVDi Bench-top Microscopes**, and can also be attached to the **FiberChek™** and **FBP-P5000i** by using the FBPT-UFMA, together with an FBPP-BAP1 adapter. FMA Series adapters are all male-threaded.

## FMAE Adapters

FMAE Series adapters are used for patch cord inspection. These adapters connect to the **FVA, FVAi-2200(-L), FVAi-2400(-L)**, and the Patch Cord Microscope on the **SmartClass Fiber Series**. They can also be connected to any VIAVI probe microscope by using the FBPT-UFMAE, together with an FBPP-BAP1 adapter. FMAE Series adapters are all female-threaded.

## FMAX Adapters

FMAX Series adapters the next generation of adapters directed for patch cord inspection and are highly recommended for new deployments and projects. These adapters connect to the **FVAi**, and the Patch Cord Microscope on the **SmartClass Fiber Series**. These are the only adapters recommended for the **FVAi-2080**. They can also be connected to the **FiberChek™ Probe** and **FBP-P5000i** by using the FBPT-UFMAE, together with an FBPP-BAP1 adapter. FMAX Series adapters are all female-threaded.

## FMAG Adapters

FMAG Series adapters are designed for patch cord inspection. They connect to the **FVAm** Bench-top Microscope. FMAG Series adapters utilize a magnetic connection so operators can quickly switch adapter types and ensure precision alignment. Each FMAG series adapter has the capability to inspect both PC and PAC connectors by simply pressing the green (APC) or Blue (PC) color coded indicator.
